

Fall Clean Up Schedule by Paul Browning Public Works

Sandy City is planning its Fall Bulk Waste Collection Program from mid-September through November 17. When dates are finalized for the city, a bright orange card will be mailed to all residences during the week of August 21. (If you are concerned about fall leaf collection, please note that there will be a separate program in late November and early December).

As part of this program, we are asking our residents to place all green waste (tree branches, shrubs, etc) into one pile and all other waste into a separate pile. This will allow us to recycle the waste as either wood chips or compost. In addition, please place your waste curbside no sooner than 1-2 days prior to the scheduled collection date.

If you have any questions about this program, please contact the Public Works Department at 568-2999.

The Jordan River Trail Through Sandy

by Scott Earl, Parks and Recreation

The Jordan River Trail, which is being built through a joint effort between Salt Lake County and the municipalities which run along the Jordan River, will eventually follow the Jordan River from Utah County to Davis County. Sandy City is responsible for 0.66 of a mile on the trail from 9050 South to 9350 South. Sandy City has installed this portion of the trail which runs parallel to the east bank of the Jordan River through the River Oaks Golf Course. The trail is protected from golfers by an 8-foot fence. On the south end, the trail will then cross the Jordan River and the North Jordan Canal into West Jordan. The bridge to cross the Jordan River will be the existing golf course bridge which leads to hole number 3. The bridge crossing the North Jordan Canal has not yet been constructed. On the north end, the trail will proceed along 700 West into West Jordan.

Currently, West Jordan, South Jordan and Sandy are making progress and securing funding to have the trail cross the North Jordan Canal into West Jordan and ultimately extend into South Jordan, connecting with the existing trail at Shields Lane. Sandy City has provided parking for the trail on the north side of the golf course parking lot. From here, trail users can access the Jordan River Trail approximately 100 yards to the west and head north.
